Route 3
Bradford, Mass.

Dear Sir:

I would like to take this opportunity to thank you and to verify your report of reception of our frequency check with Commercial Radio Equipment Company, on January 20, 1947.

The station is located about one mile South of Trinidad, and contains both studio and transmitter. We have all Gates equipment with a 150-foot shunt fed Antenna, fed by 121-feet of Coaxial.

Thank you again for your report.

Yours very truly,

H. L. Corley
Manager
