

KMYR

BROADCASTING STATION Main 4161

1626 Stout Street • Denver 2, Colorado

Nov. 8 '51

Mr. Stanwood R. Morss
Bradford Mass.

Dear Sir;

Thanks very much for your reception report, It always surprises us to receive a report from a DX fan as far from Denver as you are. Our DX reports are considerably more since installing our present half wave tower, Untill March of this year our tower was located on a ten story building in downtown Denver and our coverage was poor. The equipment at KMYR is all Western Electric.

Very Truly Yours

Allen James
Chief Engineer
