November 29, 1969

Dear Mr. Morss,

This letter is to confirm your reception of our station, WKND, on November 26, 1969 at 0620 EST. It was good to hear from Bradford, Mass!!

We are very pleased and excited about the reception tape that you sent along. WKND is a relatively new station and we welcome all DXer's verification requests. I have enclosed our coverage map & program format sheet so, you can get a better idea of WKND's directional antenna system. We use a Gates XMTR that pushes out 500 watts via a 3-tower antenna set-up. WKND came into being on August 25th of this year when the old call WEHW were dropped along with the foreign language programming.

By the way, on the morning of December 29 between 2-2:30AM we will be airing an after hours "program test" and it will be dedicated to the National Radio Club. Hope you will be up to listen for us.

Again, thanks very,very much for the excellent report & if you are ever down this way drop in and we'll show you around. Our studios are at the Windsor Shopping Center, Windsor, Conn.

Good DXing!!
