Bradford, Mass. 01830

Dear Stanwood,

This letter will serve as confirmation of your reception of WMLB on June 22, 1980 at 0242 EDT.

Our transmitter is a 30 year old RCA BTA-1R1 which feeds 1,000 watts into a single 159 foot tower.

You may also like to listen for WBIS Bristol Ct (1440 KHz, 500 Watts) They usually test the first Tuesday morning of each month at 0000 local time. I work there also and sure would appreciate a report if you should hear them. Thanks for the report and good DX.

73's,

John Ramsey
