NAUGATUCK, CONNECTICUT
PArk 9-2291

March 8, 1961

Mr. S.R. Morss
R.R. #3
Bradford, Massachusetts

Dear Sir:

Thank you very much for your report of the 4th. I hadn't expected much in the way of reports from Massachusetts, since both WSBS and CJBC should have quite a bit more of a signal in the area. Our power output here is 250 watts, directional, with our directional null towards WSBS in Great Barrington. The null is very shallow, however, and the radiation in your direction is about the same as to the south.

Your report of the programming at the time seems to check OK so you may consider it verified.

Again, thank you for the report, and keep up the good work.

Sincerely yours,

Terry King
