Mr. S. R. Morss,
R 3, Bradford, Mass.

Dear Sir:

This will verify your reception of Radio Station WKAT, on November 15, 1943 from 6 31 A to 6 42 A, while operating on a frequency of 1360 kcy/s. with a power of 1000 watts. Your report agrees without log.

Thank you for your report and trust this letter fills your request for verification.

We generally test our 250 watt auxiliary xmitter either Wednesday or Thursday morning immediately after signoff at midnight, for 15 minutes. Should you hear us would be pleased to receive a report.

Very truly yours,

ED M. VICKERS, Control Eng.
