Dear Sir,

We are sorry that you had to wait such a long time until we could send you our programme schedule. But we hope now you will get it always regularly and want to mention that it is free of charge.

May I ask you to write us occasionally whether you can receive our radio stations, which of them you receive and how the receive conditions are and also which of our programmes you like best. With help of our listeners we want to do our programmes better and better. But of course we must know what our listeners think about the different subjects of our programmes.

With kind regards,

Käthe Mauch
