Dear Stanwood:

Thank you very much for your report of reception of Radio Caracas. We are always interested in hearing about our transmissions. If you care to give us further reports, they will be received with pleasure.

We are currently run with twin RCA transmitters with a combined power out-put of 100 K watts. In the short future we are planning on uping our power to a possible 600 K watts. So maybe you will hear us a little clearer in the future.

I am quite well informed about Mass. due to the fact that my grandparents live in Larwence and I myself lived in Boston for 2 years.

Hope to hear from you again and feel free to stop in the station if you are ever in Caracas.

yours,
