

WGBA

December 8, 1947

Mr. S. R. Morss
R. R. No. 3
Bradford, Mass.

Dear Mr. Morss:

This letter will acknowledge your reception report of our standard station, WGBA. We are pleased to note that your report is correct and you may consider this letter a verification of your report.

The Georgia-Alabama Broadcasting Corporation has been operating WGBA-FM, a frequency modulated station on 95.1 mc/per/sec., for almost a year now. Your DX Club members are invited to watch for freaks on the chance that a long haul temperature inversion would carry our signal for a long distance.

Many thanks for your report and may we wish you continued success in pulling rare ones in from the blue.

Very truly yours,

GEORGIA-ALABAMA BROADCASTING
CORPORATION

Jack Wiseley
