Dear Mr. Morss:

Thank you for your report of reception of WOKA, November 22, 1962.

We had a report of interference of WGH on another letter, from Connecticut, but are more than happy to verify your reception.

Even though the report was 'disjointed' as you say, the one song, "Hambone" was enough to let us tell you thanks. Our News Director was operating the Studio controls that night and remembers playing it although he did not keep a record that particular night.

Thanks again, and happy and successful DX'ing.

Sincerely,

E.F. Mitchell
Chief Engineer
