S. R. Morss  
Bradford, Mass.

Mr. S.R. Morss:

Very glad to receive your good report on KAYL for nov. 10, it gives with our program log for that day. Our plant is a Gates BC250 D transmitter consisting of a 250TH in the final which is modulated by two 810's PP class B. 387 foot antenna. Would like to have you consider this letter as an invitation to visit our station when you are in this vicinity.

Sincerely,

William H. Carman  
Chief Engineer
