

KSMN

ON YOUR DIAL AT 1010

Mohawk Broadcasting Company

Mason City, Iowa

July 29, 1948

Mr. S. R. Morss
Rt. # 3
Bradford, Massachusetts

Dear Mr. Morss:

Thank you for your letter which we received today. We did receive your letter and reception report of 20 February 1948, but we received responses from all parts of the United States and Canada and time has not permitted us to answer all of them as yet. Your reception report of that date was correct.

Station KSMN is operating daytimes with 1000 watts on 1010kc. We are using a 235 foot tower, Wincharger 150A, and a Raytheon transmitter RA1000.

Yours truly,

MOHAWK BROADCASTING COMPANY

ROBERT M. CARSON
President
