

DAVENPORT BROADCASTING COMPANY

January 7, 1947

Mr. S. R. Morss
R.F.D. # 3
Bradford, Massachusetts.

Dear Sir:

We are happy to receive the report of your reception of our station. It is from an accumulation of such reports that we obtain the necessary information to make corrections and improvements. They are therefore always appreciated.

Our station is a 250 watt daytime only station operating on 750 kilocycles with studios and transmitter within the city limits of Davenport Iowa. We are using a Gates 250 C Transmitter feeding a single 285 foot Wincharger guyed tower. Our speech equipment is also of Gates manufacture.

Checking the program as listed in your report against our program log, and finding it to be correct, we are pleased to verify your reception of the morning of January second between the hours of 2:30 to 2:57 A.M., C.S.T.

Sincerely yours,

David A. Breister
