Dear Mr. Morss:

This is to verify your report of the reception of our new station during our equipment tests.

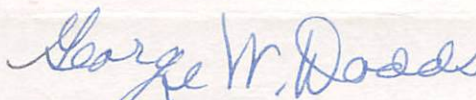

We are sorry we have taken so long in answering, but it takes time to get things going alright in a new station. Now, I am happy to report, everything is going smoothly. Of course, it could be better, but that will come with time and practice.

As I mentioned before, this is a verification of your report. We were very glad to receive it.

We were glad to know our signal could be heard as far away as Bradford.

In behalf of the whole staff, I wish to thank you again for sending in your report.

Sincerely yours,

George W. Dodds
Chief Engineer
