Dear Sir:

I am happy to confirm your reception report of January 4. This is our regular monthly check---the first Monday of every month from 12:05 to 12:20 AM CST. We have received many reception reports from Pennsylvania, New Jersey, and other eastern states; however, we have never received any reports from west of Illinois except one from Wyoming. I wondered if you had any friends in the West who might be monitoring, if you would notify them of our schedule and see if we might get a reception report from someone out there.

Thank you very much for your interest and report...if you hear any rumblings on 1480 in the future, we would appreciate a report from you.

Thanks again for the report and the very best of luck to you.

Sincerely yours,

*David L. Butler*
