Dear Stan:

Please accept this letter as VERIFICATION that your report of reception of WMCW for January 15, 1955 from 1:30 AM until 1:46½ AM Central Standard Time is correct in every detail. The one notation which proves with out a doubt of your reception of WMCW is that of the Choir of Williams Bay which were live in the studios.

The call letters signify "Milk Capital of the World". Sorry to hear of the interference from the German station, I wish I could hear them in this part of the country.

If you are ever up this way be sure and stop in and see us.

Yours sincerely,

Esther Blodgett, licensee
