Stanwood R. Morss
R.R. #3
Bradford, Mass.

Dear Mr. Morss,

Thank you for your reception report of Nov. 30, 1949.

Your report was completely accurate, and I hereby verify that report.

WLRP is using a Raytheon RA-1000 transmitter which has been giving us very good service with the exception that right now we are troubled with a third harmonic. We haven't determined definitely where it is originating from although I have a hunch it might be radiating from our guy wires, which, for some reason were cut to 50' lengths, which figures out to be a good third harmonic radiator.

Thanking you again for your report, I remain,

Very truly yours,

Eugene A. Fischer
Eugene A. Fischer,
Chief Engineer
