GLENN WEST, Owner
PORTLAND, IND.

Mr. S. R. Morss
R. R. #3
Bradford, Mass.

Dear Mr. Morss:

I regret I have been unable to reply to your last September 6, and November 23, 1951, letters until now, due to many pressing matters beyond my control.

It is indeed gratifying to note that you were able to tune us in there at mid-morning, which I believe is the most distant DX daytime report I have received to date.

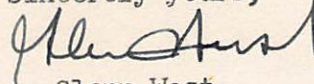

My operation is a 500 watts, two tower directional, with plenty of ground wire, beamed slightly southeast that would help somewhat.

We apparently put a terrific signal in that direction during our night equipment tests, as we have had many reports that we come in just like a local as far as Norfolk, Va.

Our license covers daytime operation only so you would have to hear us from sunrise to sunset or on our early morning equipment tests.

We hope to make another soon and your further comments will be appreciated if you so happen to log us again.

Sincerely yours,

Glenn West
