Dear Sir

Glad to confirm your DX report on Jan. 4 54. According to my operating log, we were on at that time for freq. check, calibration of remote meters and general maint. I'm surprised that our signal is carrying in that direction. We got on the air on Oct. 17, 53. We are the 1st remote controlled station in Ky. We operate with one 1st class engr. so it keeps me busy with all this remote stuff. Incidentally, we have a staff of 7 people for 18 hr day. (Everybody works but me) Richmond is located in the Bluegrass of Ky. Just a short dist. from Lexington. Be glad to hear from you again.
