Dear Mr. Monss,

This will serve as verification of your reception of KAPB on October 22, 1954. Thank you for your kind letter & we hope that you will advise us of any further reception of KAPB. We operate Daytime only so the only time you could possibly get us, in any case, would be when the band is relatively free from QRM after 1:00 A.M.. We use Collins equipment throughout.

Very Truly yours,

Charles P. Woodside
Chief Engineer
KAPB
