Mr. J. R. Morse
R3 Bradford, Miss.

Dear Sir:

I have answered several letters and think maybe I have answered but am not sure so if you get two letters I want to be sure your letter is answered.

I have checked our log and find that you were receiving KPDR. I didn't realize that we would put such strong signal way up in Bradford.

I want to thank you for your interest in KPDR and I am sure I speak for all the personnel of the station too.

I am going to dedicate our frequency Run to the Newark News Radio Club on January 22, 1947 3:15 AM to 3:30 A.M. E.S.T. I would like to know if you would like me to dedicate one or the same run to your club? If so I can arrange to have one dedicated to your club.

Thanks for your interest and kind letter.

yours truly,
Thomas Marhefka
acting Chief Engineer
