FALL RIVER, MASSACHUSETTS

October 11, 1948

Mr. S. R. Morss
R. 3
Bradford, Mass.

Dear Mr. Morss:

Thank you for your letter. This will verify the fact that it was WALE you heard testing on Saturday morning, October 9, 1948.

We are a five-month-old 250-watter, independent, Raytheon-equipped throughout. We use a 160-foot Wincharger type 300 tower, mounted atop a theatre building in downtown Fall River. Our operating schedule is 6:00 AM to 1:00 AM, Monday through Saturday, and 8:00 AM to 1:00 AM on Sunday. We test with Riverhead on the first and third Saturdays of each month between 2:45 and 3:00 AM. All times mentioned are Eastern Standard.

Many thanks for your interest in writing us.

Cordially yours,

Way

J. Buz Way
Station Manager
