Boxford, MA 01921

Dear S.R. Morss,

I am happy to confirm your reception of WSSH.

For your information, WSSH AM now carries mostly popular music programming from our sister station, WSSH FM. We operate with 50,000 watts, 20 hours a day. Our transmitter is a Harris MW-50, with a RCA BTA-50H as a backup transmitter. We have 4 towers at our site, with 2 operating during the day and all 4 operating at night.

Thanks for your letter, and happy listening!

Sincerely,

Daniel L. Steves  
Chief Engineer, WSSH AM
