IRVING B. ROBINSON

Technical Director

March 11, 1958

Mr. S. R. Morss
R-3
Bradford, Massachusetts

Dear Mr. Morss:

The signal that you undoubtedly refer to as being transmitted by WNAC on March 7, is some experimental work that we are conducting in cooperation with the Air Force. Unfortunately, I am not at liberty to disclose the matter of the signal as it is a classified experiment.

It is interesting to note that although these experiments have been conducted for nearly two years, you are the first person to write and comment on them. I have had one phone call in this period of time. These experiments will be conducted for some time in the future.

Very truly yours,

IB Robinson
