

THE JOHN HANCOCK TOWER
200 CLARENDON STREET
BOSTON, MA 02116
(617) 267-0123

August 26, 1981

Mr. S.R. Morss
RFD 3
Bradford, Massachusetts 01830

Dear Mr. Morss:

It is my pleasure to confirm you report of reception of WSNY on August 16, 1981, 10:27AM EDT.

WSNY operates on 1150 KHZ with 5,000 watts with separate directional patterns for day and night.

Our transmitters are RCA BTA-5 L-2 and RCA BTA-5T1.

The antenna system consists of 3 Blaw Kuox 270' self supporting towers in a northwest by southeast line.

Thanks for taking the time to write.

Sincerely,

A handwritten signature in cursive script that reads "Christopher J. Hall".

Christopher J. Hall
Director of Engineering
