OFFICES AND STUDIOS AT CURTIS AVE.

OWNED AND OPERATED BY COUNTY BROADCASTING CORPORATION

December 26, 1958

S.R. Morss
R-3
Bradford, Mass.

This will verify your reception of our transmission from 4:00 PM until 4:18 $\frac{1}{2}$ PM. on December 13, 1958. During this period Engineers were out with Signal Strength meters making measurements on our two tower directional antenna system.

We are now awaiting the go ahead for regular daily broadcasting on A 6:00 AM to sunset basis. Outside of the possible chance of hearing us test occasionally during the experimental period of 12:00 Midnite to 6:00 AM, the best time for your club members at A distance, to hear us is at sign on time before the ionizing effect of the sun wipes out the long range skip effect.

Sincerely,

Kenneth H. Rockwell
Chief Engineer

P.s. -- We expect permission from the F.C.C. before New Years to begin the regular broadcasting.
