Dear Mr. Morss:

Thank you for the DX report on WUOK. Your notes on the transmissions of February 22, 1993 are accurate, and confirm your reception of our station.

The following may be of interest to you. WUOK is operating with a folded monopole antenna; and at the time of your reception we were operating on our auxiliary transmitter, which is a Gates BC-1H with a power output of 1 KW. The final amplifier utilizes a pair of 833-A's. We usually run a later model, solid state Harris MW 1-A, which was down for repairs.

Sincerely,

Vern Coleman
