

February 28, 1979

Mr. Stanwood R. Morss
R 3
Bradford, MA 01830

Dear Mr. Morss:

I was pleased to hear of your reception of WXKS (AM). According to our program log of January 16, 1979, your report is accurate, so I am glad to confirm your report of reception.

We normally have a complete DX form that gives much more information about both stations, however, since we have just recently changed call letter and format, the new forms have not yet returned from the printer.

WXKS (AM) and WXKS (FM) Medford - Boston are owned by the Heftel Broadcasting Corporation and both program Disco. (The FM is in stereo 24 hours a day.)

Our AM transmitter is a Harris MW-5A and auxiliary is an RCA BTA5U. The antenna system consists of a 200' vertical guyed radiator series fed.

Thanks again for taking the time to write.

Sincerely,

Christopher J. Hall
Technical Director
