

January 20, 1975

Stanwood R. Morss
R.R. 3
Bradford, Mass. 01830

Dear Mr. Morss,

It's a pleasure to verify your informative and accurate reception report.

Our transmitter has an output of 5 KW into a non-directional $\frac{1}{4}$ wave foot antenna. Good luck, Mr. Morss, and may the ionosphere grace your antenna with strong electromagnetic radiation for many more years to come.

Thanks for listening to WJBQ on January 12, 1975.

Sincerely,

Phil Lentz
