Dear Mr. Morss:

This will acknowledge receipt of your letter of October 12th, and confirm your report of reception of WGFG... 5:45 am - 5:58 am est, Wednesday, October 12th, 1949.

You may be interested in knowing that WGFG began broadcasting August 8th, 1947, and is a fulltime 1000 watt ABC affiliate. At our studios we use RCA turntables, pickups and speech equipment. Our transmitter is a Raytheon RA-1000 with Johnson phasing system. The directional antenna system consists of four 300-foot Blaw-Knox towers, with a pattern such as to protect Hartford, Connecticut, Green Bay, Wisconsin, and Cincinnati, Ohio.

We appreciate your report and thank you for your interest in our signal.

Very truly yours,

Carl E. Stephens
Chief Engineer

Mr. S. R. Morss
Route 3,
Bradford, Mass.
