Dear Mr. Morss,

Thank you for your reception report of KEVE. Your report agrees with our logs.

KEVE operates with a power of 5000 watts day-Non directional and with a power of 500 watts directional at night on a frequency of 1440 Kcs.

Our studios and transmitters are located in the same building in Golden Valley, which is a suburb on the west side of Minneapolis.

KEVE is an independent station with programming consisting of music, news and sports. The music is primarily folk balads and some country-western, supporting the "Music americana" motto. We do diverse occasionally into show tunes, and a very limited amount of semi-classical.

Thank you again for your reception report, and I am very happy to add your report to an album containing reports from all over the world.

Sincerely,

Denvy Dety, Chief Engineer
