Bradford, Mass

Dear Mr. Morss:

This is in verification of your reception of KSMM from 1205 to 1230 CST February 7, 1966. Your reception report and detailed interference report is greatly appreciated.

Included with this verification is a coverage map of our signal area, which you might find interesting.

We operate with five hundred watts from a Collins 550A-1 transmitter into a 197 foot guyed tower.

Thank you for your reception report, and happy DXing.

73,  
KSMM Radio

  
Michael F. Kramer, Chief Engineer
