ROANOKE RAPIDS, N.C.

April 12, 1944

Mr. S. R. Morss
R-3
Bradford, Mass.

Dear Mr. Morss:

This is to verify your reception of our test program of April 3 last.

We appreciate your interest in the test which has helped us a great deal with your excellent report.

This station uses Western Electric equipment throughout, 310 B transmitter using six 242 C in the final stage, and low level modulation. Our antenna is a 155 foot vertical structure. Ground consists of 120 radials, 155 feet long.

Many thanks for your response, and hoping to hear from you at our next check, the date uncertain as yet.

We remain,

Radio Station WCBT, Inc.
