Mr. S. A. Morss  
Rt. #3  
Bradford, Mass.

Dear Sir:

Hello, Yankee. From one Bay stater to another, thanks for checking with us on our recent frequency and equipment test. The chief engineer says we will make these tests fairly often between four and six o'clock in the morning as we have no other means of determining whatever it is engineers determine. Hope this will act as a verification for you.

I used to be with WCOP in Boston, WFCI in Providence and WKXL in Concord, N. H. so I know your territory pretty well. My home is in Medford.

Sincerely yours,

Jim Scott  
Program Director  
WCPS
