November 11, 1970

Mr. S. R. Morss
Route #3
Bradford, Massachusetts

Dear Mr. Morss:

This is to confirm your receipt of our signal during the period 3:46 to 4:02 A.M. November 9, 1970. At that time WKBC was conducting a Proof-Of-Performance equipment test. We are not normally on the air at night.

We are a 250-watt directional daytime-only station and our signal is beamed to the east.

It could only be a sky wave freak (and your sensitive equipment) that enabled you to hear us at all.

Many thanks for your QSL. Our engineer will be happy to learn he had an audience.

Cordially,

A handwritten signature in blue ink that reads 'Bob Jones'.

Bob Jones
General Manager, WKBC
