again in the future whenever you receive our broadcasts of test programs.

RADIO STATION W K L M,

790 Kilocycles

Wilmington, N. C.,

500 Watts, power.

by Bob Brubaker,

chief operator (Title)

We will be on the air for a
frequency check on April 5th from
3:30 to 4:00 AM-EST if you have the chance to listen in -

Dear Stan, "The Man" - You really did a wonderful job on
notifying the members of the National Radio Club - We had
almost 50 reports from as far north as Ontario, Canada,
and even one from as far West as San Francisco, Cal.!
Everybody, it seems, had quite a lot of trouble with (over)

seven states, but all of them were very cooperative about operating enough to allow us to verify their reception of our signal. You really deserve a lot of credit for all the work that you put into the nice writing about the broadcast in your NRC bulletin.

I appreciate the copies that you sent me - Maybe as soon as the budget will stand it, I'll join the group myself! Here's a note about the broadcast you will enjoy hearing: A veteran DX'er, (I've

received reports from him at other broadcast stations) and I'm sure his name is familiar to you -

Mr. Gustave A. Magnuson of Providence, Rhode Island, - heard our program, and the mentioning of the Azules Festival that was to be held in Wilmington, N.E. - So, he came down to the festival and visited our station - He said it was the first time he had been in a broadcast station - and I delivered his verification to him in person! - He is a mighty fine gentleman - and I owe my meeting him to your efforts!!

Sincerely,
Bob Barber
