Bradford, Mass

DX'r:

Thanks for answering our call for reception reports. Your report was entirely accurate as far as the music and announcements are concerned.

Our equipment lineup here at WMMH is as follows:

Gates transmitter (originally a KW modified for 500  
watts operation)

Gates console

Gates frequency monitor

Presto turntables

We operate on a frequency of 1460 Kc, with a power of 500 watts, non directional, day time hours only.

Thanking you once again I remain

Sincerely Yours,

*Robert Dean*
