Dear Stan,

Received your letter a couple of days ago and I want to say I was so very glad to know we were getting out so far in the mornings. I just happen to be the announcer that is on in the mornings and the copywriter also as well as the engr. So you can see we have a very small staff here. The transmitter is a Collins 21-A and is a real old one, 22 years to be exact. I might add it is in real good shape. The antenna is 180 feet and is non-directional. Your listing are correct. Sure hope you have been able to get us since.

If you ever get down our way drop by to see us. Sure would be nice to see you. The town of Scotland Neck is 90 miles west of Norfolk, Va. and 85 miles east of Raleigh, N. C. Again I want to say thanks for the very nice letter and I hope you can continue to pick up our signal. I hope you have a very happy and prosperous new year and I wish you much success in radio. Again thanks.

Very Truly Yours,

Gary W. Joyner
Engr.
