March 13, 1954

Mr. Stanwood R. Morss

Bradford, Mass.

Dear DXer:

Many thanks for your fine report on our DX program. This letter will verify your correct reception of Radio Station KCNI on our DX program of March 8, 1954. We have had many fine reports from all over the Eastern part of the country.

Noted you said reception was good from New Zealand and Australian stations that morning, so perhaps reception the other way was also good and we may have been heard there again. Would be interested in knowing what frequencies you were getting these stations on.

Enclosed is a copy of our station booklet which might be of interest to you. Wishing you the best of luck in your DXing, I am,

Sincerely yours,

Don Hill
