Mr. S.R. Morss
R 2 Lake Shore Rd.
Boxford, MA 01921

Dear Mr. Morss:

Thank you for your inquiry DX letter regarding "1160-AM STAR Country." Your information sheet is indeed correct. WOBM-AM is a DA-2 radio station, broadcasting with a daytime power of 5kW, and a nighttime power (the power level you received) of 8.9kW. Our major directional lobe is along a bearing of 165° from our four-tower array located in Howell Township, Monmouth County New Jersey.

We have just completed work under a construction permit from the FCC allowing us to move from 1170kHz DA-1 to our current 1160kHz DA-2 which included pattern changes for day and for night. Our nighttime pattern has several minor lobes which point in your general direction, nonetheless I am surprised to note your location. If you would like any additional information about STAR COUNTRY, please don't hesitate to contact me. Once again, thanks for your interest!

Sincerely,

A handwritten signature in blue ink that reads 'Rick'.
