STUDIOS: 41 MAIN STREET SOUTH
CANANDAIGUA, NEW YORK

January 17, 1963

Mr. S. R. Morss
R.D. #3
Bradford, Massachusetts

Dear Mr. Morss:

This will verify your reception report of WCGR on
January 14, 1963 between the hours of 3:56 and 4:15:25 A.M.
E.S.T.

WCGR operates on an assigned frequency of 1550 Kc
with a power out-put of 250 watts from sunrise to sunset
from a non-directional antenna.

Our transmitter, located 2 miles southeast of the
main business area, is remote controlled from our studios
at 41 South Main Street.

It is interesting to us to hear from you DX'ers so
we have an idea of how far out signal travels. Consequently,
it was a pleasure to have been able to conduct the test
January 14th.

Sincerely,

Alton H. Bowman
