

WNBZ

UPSTATE BROADCASTING CORPORATION

JOHN F. GRIMES, PRES.

AMERICAN BROADCASTING COMPANY

Saranac Lake, New York

April 20, 1947

S. P. Mace
P.O. Bradford Mass.

Dear Sir -:

Thanks very much for your report
on our signal of WNBZ March the 18th
at 230 Am.

Yes we make frequency checks the 18th of
each month - at the same time with Riverhead
Long Island N.Y. P.C.A. Frequency measuring labs.
We are using an P.C.A. BTA 250L transmitter
250 watts output into a vertical antenna.

From all reports we have WWDC interference
which is not unusual.

Thanks again

TJS
