30 July 1990

Mr. S.R. Morss
R.F.D. 2, Lakeshore Road
Boxford, Mass. 01921

Dear Mr. Morss:

This letter will verify your monitoring report of 12 July 90 for WRMM(AM)990 kHz.

WRMM(AM) simulcasts programming of our sister station WRMM-FM on 101.3 MHz. The transmitter site for WRMM(AM) is located about 15 miles west-northwest of the city of Rochester. We operate at 5000 watts daytime and 2500 watts nighttime, with different daytime and nighttime directional antenna patterns using a six tower antenna array. This site has been in use since 1984.

Please feel free to write us again. While we cannot always answer letters right away because of manpower shortages, we do appreciate hearing from interested people. Thanks for your report. I'm sorry we have no promotional items for the AM station at this time.

Sincerely,

Randy F. Orbaker
Chief Engineer
