August 18, 1966

S.R. Morss

R - 3

Bradford, Massachusetts

Dear Sir:

This will confirm your reception of our station on May 29, 1966 from 0613 to 0630 Eastern Daylight Time.

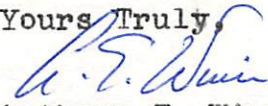

We appreciate reports of this type, as it allows us to evaluate the effectiveness of our transmitter and related equipment.

WRRC operates from sunrise to sunset at a frequency of 1300 kilocycles. Our transmitting and studio equipment is almost entirely manufactured by Gates, with the exception of our recorders, which are Ampex 350's and PR-10's.

Thank you for taking the time to write to us.

Happy DX'ing.

Yours Truly,

Anthony T. Winn,
General Manager
