Dear Mr. Morss:

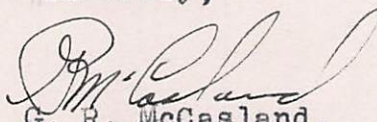

This is to verify your fine reception report of W W S O
14 January 49.

I am very well pleased by the reports you fellows sent in from
the East in spite of the interference from WCAU. I feel you
went to some trouble to get us and get the report to me.

We are using a Collins 300-G transmitter and a 275 foot guyed
tower.

Thank you:

Sincerely,

G. R. McCasland,
Chf Engr.,
