Thank you for your report of reception of portions of our special DX program on January 12th. Your report is sufficient to rate this verification.

Sorry to have been so slow in acknowledging. Shortly after the special program we were forced into a period of complete inactivity while the docs tried to make up their mind whether or not to put us out of action for a year or more. They finally decided to let us run free on range but we did lose a lot of time which we are still in the process of attempting to recover.

Thanks again for your report - and your patience.

Yours,

J. H. Platz
