AREA CODE 717 285-4700

April 2, 1972

Dear Mr/ Morss:

Forgive the long delay in QSL"ing your reception report...but it seems to have been an extremely well received test...we were literally deluged with reponses...and then there are many others things going on here which have forced Don and I to set aside the QSLs for more pressing matters like construction of our new studios in Park City Shopping Center.

QSL is ehclosed..your report is accurate and is certainly appreciated. Some years ago--1962--I conducted a weekly series of DX tests from WMHI in Braddock Heights, Maryland...also a 500w daytimer..however a two tower Directional array. It runs in my mind that you also responded to that one???At least your name seems to ring a little bell in the back of my cranium.

It's a fun hobby and not too many people seem to be interested ~~it~~ in it any more. At last count I had verified over 3000 am station and 1200 FM. Just don't have the time any more...but would love to do TV DX. Hope you continue to enjoy listening and perhaps you'll catch the 1580 sound from Columbia again. We must get a proof of performance done yet this month for license renewal.

Best wishes...and again apologies for the long wait for confimartion.
