Bradford, Mass.

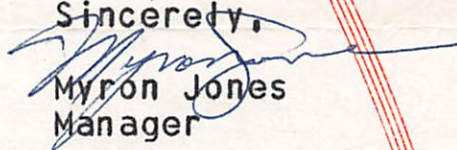

Dear Mr. Morss:

Thanks very much for your interesting report of the reception of WJET in Bradford Mass. That's quite a distance from here and it indicates that daytime skywave was at work on Dec. 14th, at 4:42PM, EST.

WJET operates with 250 Watts, into a 200' tower with a counterpoise system on top of a 20' building in an industrial section of Erie city.

Best regards for a Happy New Year!

Sincerely,

Myron Jones
Manager
