Mr. S.R. Morss
R 3 Bradford, Mass.

Dear Sir:

In answer to your letter of January 16, 1950 and checking it against our log, we gladly verify your report on reception of our station. I expected WVOM to cover us in your area completely and checked to see if Monday was the day you received us, when they are off the air. Am glad to hear we are putting such a clear signal up into that area.

Yours truly

B.A. Franklin
Chief Engineer
