Mr. S.R. Morss
R #2 Box
Boxford, Ma. 01921

Dear Mr. Morss ::

Thank you for your DX Report, the long distance reception of radio signals has been an institution warranting more public attention than it has received. In my opinion it is a science all its own and deserves our upmost attention. I am pleased to respond to your report that it is accurate and the details of your report are true.

Thank you for your dedication and time in sending this report.

Sincerely,

Ben Hill
Chief Engineer
